Effective and lasting change can ONLY be achieved through the court process!

The government doesn't want to unscramble the privatisation egg. It is not ensuring that airports are kept and developed as airports for aviation.

AACCI, is ready to act and **will pursue** proceedings for the approved public objects of the Chamber. Those objects are *To foster, preserve, maintain and develop aviation on Archerfield Airport (primarily), other secondary airports and nationally.* This will benefit every aviation user of these airports forever more. Change is achievable, it just needs your will and our action.

We can proceed immediately our litigation funding budget is achieved. If it is not achieved your contribution will be returned to you in full as per the procedure outlined in our letter. That is, you are contributing to a public fund as funds held in trust.

You do not need to be a member to contribute. You are assured your contributions are made with anonymity. Contributors names cannot be searched or made public and are kept confidential. Only the AACCI committee and our auditor have the details.

Fightback Fund (Trust Fund)

The fund is authorised pursuant to Certificate of Sanction CP5047 issued by the State Government under the *Collections Act 1966* and is solely for the approved public objects (refer above). This fund is audited. All monies are required to be dealt with pursuant to section 31 of the *Collections Regulations 2008* as if part 3 of the *Trusts Act 1973* applied.
